

DIMENSION FUNDING

Equipment and Software Financing Made Simple

For over 40 years Dimension Funding has been working with businesses across the U.S. and Canada to provide financing solutions that help them grow their business, purchase equipment, software or increase their working capital.

in 2019, Dimension Funding expanded its financing operations to companies across South America.

OUR DIFFERENCE

- Established in 1978, we have over 40 years of providing financing to businesses across the United States and Canada.
- Most of our staff have been with us for 10 years or more.
- The majority of our sales team has been with us for over 20 years.
- We have a corporate culture that fosters longevity, not only internally, but with our vendors and borrowers.
- Most of our clients have been with us for many years - some for decades.

Working for your Success

CORPORATE CULTURE

We treat everyone with dignity and respect. This not only includes our customers but everyone from our staff to the cleaning crew.

EXCEPTIONAL SUPPORT

Our staff has been with us for decades. When you call our support, you speak with the same people each time. You don't start over with a new person with each phone call. Our customer service is there to efficiently and effectively process business in a professional and personal manner, the way business should work.

VALUES

Our values are reflected in the longevity of our staff. We value honesty, integrity, thoughtfulness and courtesy. Creativity and competence are also very important to us. These are some of our core values.

HISTORY

Dimension Funding was founded in Irvine, California in 1978 as a company designed specifically to service the telephone interconnect industry. As word began to spread that Dimension Funding was providing innovative, simple and price competitive leasing solutions to its vendors and lessees, it became clear that we needed to offer the same programs to businesses in all industries.

By making this transition, Dimension Funding established itself as one of the most respected software and equipment lessors in the US.

Being a family owned and operated company for over 40 years has created an atmosphere of stability and integrity that is rare in the industry. Dimension uses its years of expertise and knowledge to create financing programs that best fit our clients' needs. More than 80 percent of our business comes from repeat clients or referrals.

Our A+ rating with the Better Business Bureau is a testament to the care that we show to our customers.
